

Supervisor Ralph Buona's Ashburn District

NEWS FLASH

Construction Spotlight - Ashburn Projects Underway!

I always enjoy announcing the good news of when Ashburn District projects are funded, but it is with even more excitement that I bring you news of three important Ashburn projects that are underway!

Waxpool Road - Faulkner Road & Unbridled Way with Signal at Ashburn Village Boulevard: As discussed in previous communications, construction is underway to widen Waxpool Road to four lanes between Faulkner Road and Unbridled Way (adjacent to the Verizon campus). The signal at Ashburn Village Boulevard is scheduled to be operational in September. See the photo below to see how much progress has been made to date! This view is going east on Waxpool Road approaching the intersection at Ashburn Village Road.

**Broad Run High School Improvements:**

Another exciting project that will impact the daily lives of many of the high school students in Ashburn has broken ground. Thanks to the emergency funding Supervisor Williams and I were able to secure this year, Broad Run High School (BRHS) will be receiving a much needed and long-overdue renovation and expansion.

The project provides funding to design and construct a ten classroom addition to BRHS, as well as expand the cafeteria, two resource spaces and a health room, and other improvements. Athletic upgrades include synthetic turf and track replacement in the stadium, improved press boxes and other needed infrastructure. The existing bus depot will be removed. The renovation and expansion will increase student capacity from 1,468 to 1,600, eliminating the need for trailers.

Ashburn Volunteer Fire & Rescue Department New Facility:

Demolition of the existing 67-year-old facility began on July 30 this year. Supervisor Williams and I led the effort for the board to support the \$7.3 million project by funding half of the cost. The volunteers have committed to raising the remainder of the funding. The Ashburn Volunteer Fire and Rescue Department is one of the most successful volunteer companies remaining in Loudoun thanks to the dedication of their volunteers. The new facility is scheduled to be open in 2015. The station will operate out of a temporary structure until the new facility opens.
